

# Following the Rules

<http://www.kansasasd.com/socialnarratives.php>

At school I work hard and follow the rules.

My teacher is happy when I do my best work and follow

the rules.

Sometimes other kids will not follow the rules.

It makes me mad when other kids are not following the

rules.

When I see other kids not following the rules; I need to

be calm.

- I may want to walk away.

That is OK.

- I may want to tell a teacher.

That is OK.

- I may not want to talk to the kids that made me mad.

That is

OK.

When I see other kids not following the rules, I may want to make them stop.

It is not my job to make them stop.

When I see other kids not following the rules, I may want to yell at them.

I should **not** yell. 

When I see other kids not following the rules, I may want to hit or push.

I should **not** hit or push. 

I need to remember to follow the rules myself  and stay calm 

When I am calm, I can learn. I am happy.
